

DIY HALLOWEEN CUPCAKES

SUPPLIES NEEDED

24 pre-made cupcakes	4-5 Oreo cookies, crushed
butter cream icing (purchased from my grocery store's bake shop)	black icing (for writing)
cake decorating bag	green food coloring
#3 and #233 decorating tips	plastic, spider rings
Peeps marshmallow ghosts, cats and/or pumpkins (with toothpicks inserted in bottom)	
Vienna cookies, separated, filling removed and cut in half	

LET'S MAKE IT!

Affix #3 decorating tip to the end of black icing bag or tube.

On flat side of cookie, write a little message on tombstone. Boo and RIP work for me.

Tint icing green.

Affix decorator tip #233 to decorating bag and fill bag with icing.

Icing the cupcakes may take a little practice with the grass decorating tip. Place tip near the cupcake, squeeze, allowing the strands to drop onto the cupcake, release pressure from the bag while pulling the bag upwards. The pull and release motion will give more of a grassy look than an hairy look (we reserve the hairy look for Cookie Monster)

Press a tombstone cookie, spider ring and marshmallow Peep into each cupcake. The Peeps need toothpicks to secure them to the cupcake so they don't fall over.

Sprinkle some of the crushed Oreos around the tombstone! (I added candy leaves that I picked up in the grocery store bake shop too.)

Enjoy!
