

# CRAYON PRETZELS TUTORIAL

---

## SUPPLIES NEEDED

---

Pretzel Rods	Crayon Wrapper Template
Wilton Candy Melts (5 different colors)	Crayon Box Template
Copy paper in primary colors	
approximately 4 cups of uncooked rice	
Tape	
large and small cellophane lollipop bags	

## LET'S MAKE IT!

---

Place rice in a shallow pan and set aside.

In a small, microwave safe bowl, melt one color of Wilton candy melts for 30 seconds. Remove, stir and repeat in 30 second increments until candy is liquid.

Dip first half of pretzels in candy melts, stick dry end of pretzel in rice & allow candy to set.

Dip second half of pretzels in candy melts, stick dry end of pretzel in rice & allow candy to set.

Repeat steps 2-4 with all candy melts colors.

Print Crayon wrappers on colored paper.

Cut out wrappers, wrap around individual pretzels & secure wrapper with tape.

Insert one crayon of each color in a small cellophane bag.

Download crayon box template & following printing instructions onto yellow paper. Cut out, fold and tape (this was the nightmare portion of the project for me).

These are the stages of rudimentary photoshopping and re-design that I did to the crayon box. The front of the box was not printed on the crayon boxes, they were printed separately and applied to the box with double-stick tape.

Insert crayons in boxes and wrap boxes in large cellophane bags. Tie closed.
